Stock Slide

1/2-point drop falls short of Wall Street's hopes

By Sam Zuckerman
CHRONICLE ECONOMICS WRITER

The Federal Reserve lowered interest rates yesterday for the third time this year, but that didn't stop Wall Street from throwing a temper tantrum.

Stocks plunged after the central bank slashed its benchmark short-term rate 0.5 percentage-point, to 5 percent. Although the reduction was in line with market expectations, it fell short of the super-sized 0.75 percentage-point cut stock traders had hoped for.

The Dow Jones industrial average fell 238.35 to 9,720.76, more than 2 percent. The index is 17 percent below its high, reached in January 2000.

Mission Statement:

“Improving our community
through active engagement
and strong friendships”

Strive to achieve meaningful connections

Rotary allows us to connect with one another, in deep and meaningful ways, across our differences. It connects us with people we would never otherwise have met, who are more like us than we ever could have known. It connects us with our communities, to professional opportunities, and to the people who need our help.
