Andres Vera, Cellist

*Emergency Services Day was established through the generosity of the San Francisco Rotary Foundation.*

The Rotary Club of San Francisco is an association of business professionals and community leaders who are active in a wide variety of local and international community service programs. It supports many projects in San Francisco, the Bay Area and beyond, which address issues like environmental awareness, youth development, literacy, and hunger. The Rotary Club of San Francisco is one of more than 35,000 clubs in over 200 nations, and is the second oldest Rotary Club in the world. The Rotary Club of San Francisco meets most Tuesdays at noon at the Hotel Nikko, 220 Mason Street, in San Francisco. Meetings feature interesting guests, speaking on timely topics. Guests are always welcome! For more information about Rotary's meeting and events calendar or membership, please visit: [www.sfrotary.com](http://www.sfrotary.com).

# Annual Emergency Services Day Luncheon

## Honoring Bravery & Service since 1987

## March 8, 2022

**Rotary**  
Club of San Francisco

Second oldest Rotary Club in the world

## 2022 Annual Emergency Services Day Honorees

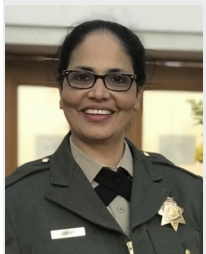

**Nick Majeski, Emergency Response Manager, San Francisco Office of City Administrator**, who played a key role in creating the Moscone Mass Vaccination site, established the Alemany Farmers' Market COVID testing site, managed distribution of millions of pieces of state-provided PPE, and created a network of warehouses, Community Learning hubs, staging locations and field medical facilities to fight the pandemic.

**Charles Fann, San Francisco COVID-19 Task Force Lead San Francisco Department of Public Health** who helped establish the first Isolation and Quarantine hotel sites in San Francisco, providing a safe place for individuals who could not isolate and quarantine at home. He led the Covid outbreak management team and transitioned to overseeing the health management branch.

**Sgt. Kent Long, San Francisco Sheriff's Department** who intervened while off duty in the aftermath of a shooting in Oakland, providing first aid to a Good Samaritan who was helping two victims of a drive-by theft. He stabilized the scene and provided first aid to the shooting victim until the Oakland Police arrived on scene.

**Sgt. Mercy Ambat, San Francisco Sheriff's Department** who deescalated and resolved an incident with a newly incarcerated individual, who was defying COVID safety protocols and destroying furniture and fixtures in his cell, flooding it, and threatening staff with a piece of broken glass light. While prepared to intervene with staff, she preferred to talk the individual into a calm state, resolving the situation without injury to the individual or deputies.

**Officer Antron Barron, San Francisco Police Department** who, for the last ten years, has developed and deepened relationships with Western Addition community centers and neighborhood groups, mentoring local youth. Officer Barron has garnered community trust and respect and through this was successful in mediating a situation with rival gangs and averting violence.

## 2022 Annual Emergency Services Day Honorees

**Officer Ryan Gonzalez, San Francisco Police Department** who was able to deescalate an incident involving a belligerent suspect in a barricaded Tenderloin apartment, without harm to the suspect or fellow officers, and who also saved the life of a drug overdose victim.

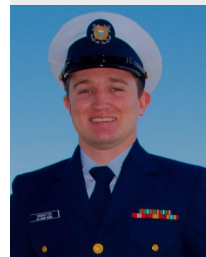

**RC Beth Goudreau, San Francisco Fire Department** who conducted, in concert with the U.S. Coast Guard, a harrowing rescue at sea of a young woman who had ingested poison, transporting her for nine hours over 230 miles by helicopter while administering life-saving procedures.

**LT. Brook Mancinelli, San Francisco Fire Department** who calmly organized and conducted a Golden Gate Bridge rescue operation, coordinating with Golden Gate Bridge Authority staff, saving a suicidal and combative bridge jumper who had climbed 30 feet below the pedestrian walkway into one of the girders 300 feet above the San Francisco Bay.

**MK3 Gabriel Perez, United States Coast Guard** who repaired an 87' Coast Guard cutter's jet drive while underway, after 100 feet of line was sucked into it, averting a serious incident which could have not only damaged the vessel but imperiled lives.

**MST3 Cameron Simington, United States Coast Guard** who demonstrated technical expertise while investigating more than two dozen pollution incidents and mitigating several thousand gallons of oil and hazardous materials from affecting waterways within the Bay Area. He also volunteered to help place 800 Afghan refugees into US communities, reinforcing interagency cooperation, and demonstrating the humanitarian essence of the Coast Guard mission.
