

Rotary

Club of San Francisco

A cornerstone of Rotary is our weekly meeting where we share fellowship, enjoy a meal and learn about Rotarians' tireless work to support communities both locally and around the world. Reflecting on Rotary International's theme, *Rotary Connects the World*, we are inspired to look for creative ways to work together during the global pandemic crisis, particularly when we temporarily need to stay at home and limit mobility for essential needs.

Commencing March 24, 2020 we are adopting an e-meeting format. Please look for an email invitation to register and join the meeting via your home computer using Zoom online facilitation. We understand it can get lonely and frustrating spending time alone; we all need personal connections, something that makes our lunch meeting at the Sir Francis Drake hotel so special. Until regular lunch meetings resume, I am pleased to share with you that we have assembled a team of Club members extending invitation to call, text or email as you wish. So, let's stay connected and together; we will become an even stronger Club.

Here are our four Club members' contact information:
